

## Michaud Announces Federal Funding for Terminal Building Improvements at Bangor International Airport

Wednesday, August 13 2008

BANGOR, ME -

Today, Congressman Mike Michaud announced that the Federal Aviation Administration (FAA) has awarded \$1,066,054 to the City of Bangor. This grant will provide funding for the final phase of terminal building improvements at the Bangor International Airport. Terminal building improvements include installation of fire alarms in the recently expanded terminal area and a passenger notification system.

BANGOR, ME -

Today, Congressman Mike Michaud announced that the Federal Aviation Administration (FAA) has awarded \$1,066,054 to the City of Bangor. This grant will provide funding for the final phase of terminal building improvements at the Bangor International Airport. Terminal building improvements include installation of fire alarms in the recently expanded terminal area and a passenger notification system.

"The Bangor

International Airport

is in the process of making a lot of improvements and upgrades. I am pleased with the Federal Aviation Administration's decision to award this funding to Bangor," Michaud said. "The improvements at the airport will ensure increased safety and security for airport passengers."

The Federal Aviation Administration's Airport Improvement Program (AIP) provides grants to public agencies and to private owners and entities for the planning and development of public-use airports. AIP projects include those improvements related to enhancing airport safety, capacity, noise sensitivity, security, and environmental concerns.
