

Michaud Statement on Federal Disaster Declaration for Maine

Wednesday, September 10 2008

WASHINGTON, DC

- Today, Congressman Mike Michaud issued the following statement in reaction to hearing the news that the federal government has granted Governor John Baldacci's request for federal assistance to help in the recovery efforts in the aftermath of the severe storms, flooding and tornadoes that occurred July 18 to August 16, 2008. Congressman Michaud joined with Congressman Allen in writing a letter of support for the Governor's request.

WASHINGTON, DC

- Today, Congressman Mike Michaud issued the following statement in reaction to hearing the news that the federal government has granted Governor John Baldacci's request for federal assistance to help in the recovery efforts in the aftermath of the severe storms, flooding and tornadoes that occurred July 18 to August 16, 2008. Congressman Michaud joined with Congressman Allen in writing a letter of support for the Governor's request.

"The damage in Maine requires the full support of the federal government. I joined with Governor Baldacci and the entire Maine congressional delegation in strongly urging the President to approve the request for a federal disaster designation. I am pleased that the administration answered that call. Now that the disaster declaration has been made, federal resources will be made available to help our communities rebuild."
