

RSS Feed

HOW TO SUBSCRIBE: Simply click on the "Latest News" section or the orange RSS feed icon on Mike's home page. The graphic below highlights where to click:

From Wikipedia:

"RSS (abbreviation for Really Simple Syndication) is a family of Web feed formats used to publish frequently updated works—such as blog entries, news headlines, audio, and video—in a standardized format. An RSS document (which is called a "feed", "web feed", or "channel") includes full or summarized text, plus information such as publishing dates and authorship. Web feeds help publishers by letting them syndicate content automatically. They benefit readers who want to subscribe to timely updates from certain websites or to bring feeds from many sites into one place.

"RSS feeds can be read using software called an "RSS reader" or "feed reader", which can be web-based, desktop-based, mobile device or any computerized Internet-connected device. A standardized file format allows the information to be published once and viewed by many different programs. The user subscribes to a feed by entering the feed's "URL" into the reader or by clicking an RSS icon (like the orange icon on this page)

"In a browser that initiates the subscription process. The RSS reader checks the user's subscribed feeds regularly for new work, downloads any updates that it finds, and provides a user interface to monitor and read the feeds."
