

Michaud Meets with Transportation Secretary Ray LaHood

Wednesday, April 22 2009

WASHINGTON, DC – Today, Congressman Mike Michaud met with U.S. Department of Transportation Secretary Ray LaHood in his Washington office. Michaud discussed a number of transportation issues with Secretary LaHood, including Maine’s truck weight problem. Michaud also invited Secretary LaHood to visit Maine, particularly the University of Maine’s Advanced Structures and Composites Center, which is conducting cutting edge work on composite materials that have been demonstrated for use in bridge construction. A photo of the meeting is attached.

WASHINGTON, DC – Today, Congressman Mike Michaud met with U.S. Department of Transportation Secretary Ray LaHood in his Washington office. Michaud discussed a number of transportation issues with Secretary LaHood, including Maine’s truck weight problem. Michaud also invited Secretary LaHood to visit Maine, particularly the University of Maine’s Advanced Structures and Composites Center, which is conducting cutting edge work on composite materials that have been demonstrated for use in bridge construction. A photo of the meeting is attached.

Michaud, a member of the House Transportation and Infrastructure Committee, is currently working with his fellow committee members to update the next multi-year highway and transit authorization bill.

“We had a very productive meeting today. I really appreciated him taking the time to meet with me,” said Michaud. “I look forward to his visit to Maine and working with him to update and improve our nation’s surface transportation programs.”

Before becoming Secretary of Transportation, LaHood served for 14 years in the U.S. House of Representatives from the 18th District of Illinois (from 1995-2009). During that time he served on the House Transportation and Infrastructure Committee and, after that, on the House Appropriations Committee.
